

Saeeda Saad
Full Stack Developer
Quetta, Balochistan, Pakistan

Github: <https://github.com/saeedasaad>
Linkedin: <https://www.linkedin.com/in/saeeda-saad-webdeveloper>

Summary

Full Stack Developer with hands-on experience building and deploying scalable web applications using React.js, Node.js, Express.js, MongoDB, and PostgreSQL. Experienced in RESTful API development, JWT authentication, role-based access control, and responsive UI design. Currently expanding into Next.js and AI web development. Strong focus on clean architecture, performance optimization, and real-world project delivery.

Skills

- **Frontend:** HTML, CSS, JavaScript (ES6+), React.js, Redux Toolkit, Context API, Tailwind CSS, Bootstrap.
- **Backend:** Node.js, Express.js, RESTful APIs, Next.js (learning)
- **Database:** MongoDB, Mongoose, PostgreSQL, MySQL
- **Tools & Platforms:** Git, GitHub, Postman, Netlify, Docker, CI/CD, Visual Studio Code.
- **Core Concepts:** Authentication (JWT), Role-Based Access Control, Responsive UI, Modular Architecture
- **Security:** JWT Authentication, Input Validation, XSS, CSRF, Injection Attack

Education

2022 - 2026	SARDAR BAHADUR KHAN WOMEN'S UNIVERSITY Bachelor of Science in Computer Science	Quetta, Pakistan
2019-2020	GOVT. GIRLS COLLEGE Higher Secondary School Education (Pre-Engineering)	Mastung, Pakistan
2017-2018	DANISH MODEL HIGH SCHOOL Secondary School Education (Matric – Science)	Mastung, Pakistan

Experience

Dec 2025	U DEVS MERN Stack Development Intern ● Developed full-stack applications using React.js, Node.js, and Express.js ● Built and tested RESTful APIs with CRUD functionality ● Collaborated using Git in an Agile (Scrum-based) workflow ● Integrated frontend and backend systems with focus on performance and scalability	(REMOTE)
Nov-Dec 2025	APEXCIFY TECHNOLOGIES Full Stack Web Development Intern ● Developed and optimized frontend features using React.js ● Integrated REST APIs and improved UI responsiveness ● Contributed to Gym Management System with real-world functionality	(REMOTE)
Oct-Nov 2025	HEX SOFTWARES Web Development Intern ● Built responsive UI using React.js, HTML, CSS, JavaScript	(REMOTE)

- Supported backend functionality and fixed bugs

Jul-Sep 2025

DIGITAL EMPOWERMENT NETWORK

(VIRTUAL)

Web Development Intern

- Developed responsive web pages and integrated APIs
- Built MERN stack applications in a collaborative environment

Projects

Learning Management System (LMS) - Full Stack

- Built a scalable full-stack application using React.js, Node.js, Express.js, and PostgreSQL
- Implemented role-based access control for Admin, Instructor, and Student with JWT authentication
- Designed responsive modular UI with reusable components
- Developed RESTful APIs with proper error handling
- Applied Docker and CI/CD practices for deployment

Gym Management System

- Developed full-stack features with React.js and Node.js
- Built REST APIs and implemented role-based dashboards
- Improved UI responsiveness and user experience

E-commerce Web Application

- Created product listing interface with API integration
- Developed responsive UI and dynamic data rendering
- Implemented core e-commerce functionalities using MERN stack

Certificates

- **Python Programming** HyperLink (Feb 6, 2026)
- **Web Development** Digital Youth Empowerment, Balochistan Chapter (Feb 10, 2025)
- **Advanced Web Application Development** College of International Skills Development, Science College Quetta Campus (Oct 15, 2024)
- **Google UX Design** Coursera (Nov 19, 2023)
